Absorbents**

**SAF™**

## Technical Data Sheet - Product Type: 7144

| <b>Absorbency</b> (0.9% Saline Solution, Typical Values) |                       |
|--|-----------------------|
| Absorbent capacity (0.9% Saline):                        | 10.0 g/g              |
| Absorbent volume (0.9% Saline):                          | 3000 g/m <sup>2</sup> |

| <b>Physical Properties</b> |            |
|----------------------------|------------|
| Description                | Needlefelt |
| Colour:                    | White      |
| Weight (g/m <sup>2</sup> ) | 300        |
| Thickness (mm)             | 3.7        |

| <b>Supply Format</b>                  |        |
|---------------------------------------|--------|
| Enquire with us for available options |        |
| Max. Slit Width (mm)                  | 1950.0 |
| Inner Core Diameter (mm)              | 76.2   |

## Storage

SAF™ Fabrics should be stored in its original packaging. As supplied, SAF™ Fabrics are double wrapped in a polythene. The seal must not be damaged if SAF™ Fabric is to be stored successfully.

Fabrics should not be opened until required for processing. If it is necessary to open the contents, then it must be resealed. Fabrics should not be placed in a damp or wet environment.

SAF™ Fabrics are highly absorbent and will tend to extract moisture both from the atmosphere and from any surface it comes into contact with. Humid conditions should be avoided

The information contained in this document is given in good faith based on our current knowledge. It is only an indication and is in no way binding, particularly as regards infringement of or prejudice to third party rights through the use of our products and does not constitute a specification for the above material. Technical Absorbents guarantees that its products comply with its sales specifications. This information must on no account be used as a substitute for necessary prior tests which alone can ensure that a product is suitable for given use. Determination of the suitability of product for the uses and applications contemplated by users and others shall be the sole responsibility of users. Users are responsible for ensuring compliance with local legislation and for obtaining the necessary certifications and authorisations. Users are requested to check that they are in possession of the latest version of this document and Technical Absorbents is at their disposal to supply any additional information.
